

STEFFAN SØLVSTEN

PhD Student of Computer Science at Aarhus University

@ soelvsten@proton.me +45 24772366 Aarhus, Denmark in /steffan-soelvsten

Technophobic computer scientist, climber, dancer, psychology and philosophy interested and board game playing hippie. My PhD research is at the intersection between the areas of *formal methods*, *algorithms*, and *complexity theory*.

PROFESSIONAL EXPERIENCE

Academic Experience

PhD Student

Aarhus University

📅 November 2019 – August 2024 📍 Aarhus, Denmark

Research in the field of Formal Verification in collaboration with Prof. Jaco van de Pol as my supervisor. The aim of this project is to design I/O-efficient variants of the algorithms and data structures used in the field of Verification; this way we hope to scale our current techniques to encompass more real-life pieces of software and hardware.

Products of my research:

</> Adiar: External Memory Decision Diagrams

A fully-fleshed BDD library implemented in C++ allowing one to construct and manipulate Decision Diagrams, even when these vastly outgrow the memory available.

git : github.com/ssoelvsten/adiar/

📄 : ssoelvsten.github.io/adiar/

Industry Experience

Student Programmer

SCALGO

📅 May 2019 – October 2019 📍 Aarhus, Denmark

SCALGO brings cutting-edge massive terrain data-processing technology to market, build on more than two decades of research on I/O-efficient and geometric algorithms.

As a student developer my responsibilities was to improve and maintain the frontend of the *SCALGO Live* platform.

Software Developer

IT Minds

📅 March 2018 – April 2019 📍 Aarhus, Denmark

Consultant providing IT solutions, that improve and automate the client's workflow. Among my clients have been *LEGO*, where I was working full stack and was the main architect on the frontend Angular application.

I was the lead architect on the frontend of an internal project, where I succesfully mentored the new interns, providing feedback on their approaches to solutions and code quality.

EDUCATION

BSc in Computer Science

Aarhus University, Denmark

📅 August 2015 – June 2018

Graduating from Denmark's most theoretical computer science bachelor's degree.

🎓 Course Average: 11.42 (A).

📄 Bachelor's Project: 12 (A+).

MSc in Computer Science

Aarhus University, Denmark

📅 August 2019 – August 2022

Master's degree obtained as part of an integrated PhD. My choice of courses focused on *algorithmics* and *formal verification*.

🎓 Course Average: 12.00 (A+).

SKILLS

Interpersonal Skills

Teaching Public speaking

Technologies

C++ Rust \LaTeX SML / OCaml Java / C#
Python Git SQL
Spring Boot Twisted TypeScript Angular React

Theoretical Computer Science

Model Checking Formal Verification Logic
Functional Programming I/O Model Algorithms
Game Theory Complexity Theory
Proof Assistants Concurrency Distributed systems

Mathematics

Linear Algebra Algebra Mathematical Modelling
Mathematical Analysis

TEACHING

Teaching Assistant

Aarhus University

📅 March 2017 – Present

📍 Aarhus, Denmark

For a group of students I corrected their weekly assignments and organized their weekly face-to-face lessons that follow the exercises provided by the course coordinator.

Courses: Computability and Logic Algorithms and Datastructures Regularity and Automata

Supervisor

Aarhus University

📍 Aarhus, Denmark

I have had the opportunity to supervise students in projects related to my research project.

- **Anders Benjamin Clausen and Kent Nielsen**
As part of their Bachelor's project in 2022 they investigated the possibility to make a prior known algorithm for BDD variable reordering I/O-efficient.
- **Anna Blume Jakobsen and Mathias Weller Berg Thomasen**
In the summer after their first year on Bachelor's degree they implemented a prototype of what was to become the *Adiar* project.

INTERNATIONAL ACTIVITIES

International Events

- **MOVEP 2022**
📅 June, 2022 📍 Aalborg University, Denmark
I attended the *Summer School on Modelling and Verification of Parallel Processes* where I presented my research project during the Student Session.
- **TACAS 2022**
📅 April, 2022 📍 LMU/TUM, Germany
I presented [2] at the 29th International Conference on *Tools and Algorithms for the Construction and Analysis of Systems*.
- **MFCS 2020**
📅 August, 2020 📍 Prague, Czech Republic (Zoom)
I presented [3] at the 45th International Symposium on *Mathematical Foundations of Computer Science*. Due to COVID-19, this presentation was pre-recorded and is available [here](#).

Research Visits

- **Twente University**
📅 October 2021 (one week) 📍 Netherlands

LANGUAGES

English

Fluent – IELTS Academic: 8.0 (2019)
